PROFESSIONAL SUMMARY

System Analyst and Software Engineer with an academic background from **Institut Teknologi Bandung (S1 Sistem dan Teknologi Informasi)**. Experienced in analyzing complex existing systems, business process modeling with **Camunda BPMN 2.0**, static code analysis using **ANTLR v4** (call graph and Kafka topic mapping), Salesforce CRM management, and backend microservices engineering using **Java 17 Spring Boot** and **PHP Laravel**. Dedicated to designing clean, scalable architectures and leveraging modern AI workflows for high operational velocity.

PROFESSIONAL EXPERIENCE

IT Technical & System Integration — **PT. Agansa Primatama** Aug 2026 – Present (Current Active)
Office of Strategic Management (OSM) Department | Bandung, Indonesia

- Lead the administration, user management, and operational workflows of corporate **Salesforce CRM** to streamline strategic cross-departmental operations.
- Oversee corporate web architecture, technical infrastructure maintenance, and system integration across digital platforms.
- Design technical integration flows and automate strategic data pipelines under the Office of Strategic Management to eliminate operational bottlenecks.

System Analyst — Loan Origination System (LOS) Phase 2 — **PT. Padepokan Tujuh Sembilan** Dec 2025 – Jun 2026
Enterprise Banking & Financing Microservices System

- Analyzed the existing Loan Origination System (LOS) Phase 2 to map end-to-end financing workflows, business validation rules, and technical dependencies.
- Mapped application logic and microservices communication by performing static code analysis using **ANTLR v4** to construct function call graphs and map distributed **Kafka topic event streams**.
- Documented database access patterns, repository usage, and query behavior in **SQL Server** to understand persistence logic and data integration.
- Modeled **30+ BPMN workflow diagrams** using **Camunda Modeler** to translate legacy business processes into standardized, configurable workflow orchestration.
- Conducted comprehensive AS-IS / TO-BE gap analysis between existing implementations and BPMN-based architecture to identify technical migration risks.
- Collaborated with developers, product stakeholders, and business teams to align technical specifications with business requirements.
- Developed supporting backend microservices and REST APIs using **Java 17 and Spring Boot** in a distributed environment.

Software Engineer — Omnichannel Platform — **PT. Foom Lab Global** Jul 2022 – Oct 2022
Commerce & Multi-Store Digital Platform

- Developed core web application features using **PHP Laravel and MySQL** for an omnichannel commerce platform.
- Integrated e-commerce platforms, corporate ERP systems, and 3PL logistics APIs to synchronize orders, multi-warehouse inventory, and shipping tracking numbers automatically.
- Implemented backend transaction logic and webhook consumers to improve cross-platform operational efficiency and eliminate manual data handling.

CORE TECHNICAL SKILLS

System Analysis: Requirements Engineering, BPMN 2.0 (Camunda Modeler), ANTLR v4 Parser & Call Graphs, AS-IS / TO-BE Gap Analysis, SRS Documentation, Service Communication Mapping.

Backend & Microservices: Java 17, Spring Boot, Apache Kafka, Node.js / Express.js, PHP Laravel, RESTful API Design, Transactional Outbox.

Databases: SQL Server, PostgreSQL, MySQL, MariaDB, MongoDB, Query Optimization.

Tools & Platforms: Salesforce CRM, Camunda Modeler, Postman, DBeaver, Git / GitHub, VS Code, Figma, Adobe Illustrator.

EDUCATION

Institut Teknologi Bandung (ITB) — Bachelor's Degree in Information Systems and Technology (S1 STI) 2019 – 2025

HONORS, AWARDS & CERTIFICATIONS

-  **2nd Runner Up (3rd Place) — AIS Competition 2021** • Telkom University (Mobile Application UI/UX Design)
-  **Certified UI/UX Designer (Batch 28)** • Sanbercode Bootcamp (No. 27904/164/BDG/P-SNBR/CODE/2021)

LANGUAGES

Bahasa Indonesia: Native | **English:** Professional Working Proficiency
